WHY BUSINESS

ADMISSIONS ESSAY

What separates a thriving business from an entrepreneurial dream? Throughout my studies and work experience, I have seen that the success of a business in the market is defined by the quality and creativity of a company's human resources. For this reason, it is essential for companies to invest not only in promising assets, but its workers as well. I have always been fascinated by the various methods and tools used to seamlessly run a business, integrating the newest developments in workforce trends. For this reason, I hope to attend business school in the field of Resource Management so that I can combine my interpersonal skills with my knowledge of the market to facilitate company growth.

The collective ability of a company's human resources will determine the ability of the business to push forth new innovation and expand to new markets. Through my experiences in the marketing sector, I have seen that an integration of experts from various fields helps to create a more succinct and coherent company structure. At my previous company, TransLink, I lead a team of workers from various departments in an effort to create a new platform for cross-departmental communication. The initiative was a great success and increased employee satisfaction while decreasing product turn-around time. I believe that business school will give me invaluable insight on how to implement more resourceful and effective management programs.

My goal is to eventually run my own business, and that requires me to have the ability to develop innovative and flexible management strategies. I am well versed in many of the current strategies utilized by leading companies today, but I want to be able to expand my knowledge in various industries. I believe that my business studies will help me to further my knowledge of various sectors essential to management strategy development. In addition, I hope to gain an understanding of international markets that will allow me to cater to companies around the world.
