### Charlie and the Chocolate Factory Film Review

The director's version of Charlie and the Chocolate Factory is everything you could possibly want it to be; the only disappointment is not being able to taste the chocolate! The outstanding script and very humorous story you can't help but love, and Johnny Depp - who stars as Willy Wonka - is the king on top of the cake.

The other characters are portrayed as people you would expect to see in a comedy and action. The movie is not a comedy or action and is a great story of a boy who finds his dream. Charlie is a great boy of chocolate, but his character is not as funny as you would expect. It's ironic, and Charlie wins the chance to visit Mr. Willy Wonka in his chocolate factory, where "nobody ever goes in, and nobody ever comes out."

Most other children and Charlie visit the factory, along with their grandfathers. It is ironic that the first five boys "had their" in the film are all an identical setup as they were fifty years ago, when David lost with his book, and as Charlie does not change their characterisation gives you the idea that he could be going to make a good visit to his son. "Chocolate" happens as a golden tour of the factory by Mr. Wonka, leading to children having their chance to see the great place, and it becomes very funny for the audience. The story revolves in a happy, yet reflective manner, but to find out what happens at the end you'll have to see it yourself.

The movie can only be described as a fairy tale. The world of chocolate, where the children are not allowed to eat, is a great example of a world that is not real, as it is not real. The characters of Mr. Willy Wonka and the other boys take the boy completely by surprise, but to find out what happens at the end you'll have to see it yourself.

The movie in the film is with the best of them, however nothing is remarkable. The end scene, the message, is a great example of a world that is not real, as it is not real. The characters of Mr. Willy Wonka and the other boys take the boy completely by surprise, but to find out what happens at the end you'll have to see it yourself.
