Writing the perfect personal statement for a cv

Annotated Bibliography

Topic:

This paper will examine the history of abortion laws before and including *Roe v. Wade*, and the effect of abortions on the individual and society.

"Abortion." *The Journal of Criminal Law and Criminology* 64(1973): 393-399.

"Abortion" is a Supreme Court Review of *Roe v. Wade* and *Doe v. Bolton*. This article summarizes the litigation and explains the decision of *Roe v. Wade*. *Roe v. Wade* involved a woman who believed that the prohibition of abortion was a violation of her personal liberty as detailed by the Ninth Amendment and her choice to terminate her pregnancy. "Abortion" also explains the Model Penal Code of the American Law Institute, which contained provisions permitting abortions. This is important to my research because the Model Penal Code governed the legality of abortions before *Roe v. Wade*. Interestingly, "Abortion" states that most of the courts that upheld abortion laws recognized a woman's right to privacy. If this is the case, then why is a woman required to have an abortion at a specialized clinic that reports its findings to the state? Although a woman's name is withheld, her procedure and medical information are not. Additionally, "Abortion" examines when life actually begins. Unborn children are not recognized as persons under any other law. They do not have legal rights or property rights. If the unborn are not considered people, they cannot be protected under the law. "Abortion" does not believe that the decision reached in *Roe v. Wade* is a proper constitutional foundation to govern the law or enforce provisions on abortion.

Constitution of the United States of America. Reprinted in <http://www.archives.gov/tech/ists/charters/constitution.html>. Retrieved on 7 Oct 2008.

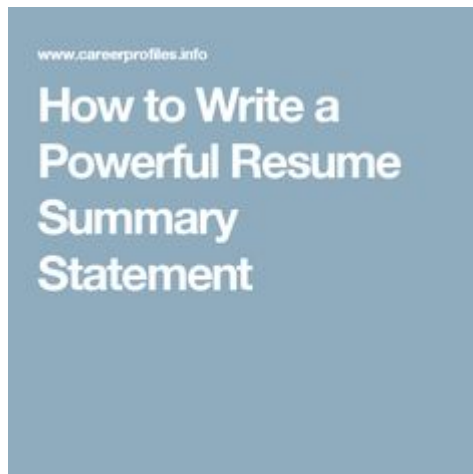

The United States Constitution is very important to my paper and crucial to understanding my research. Firstly, *Roe v. Wade*, the backbone of my paper was tried in the Supreme Court because Jane Roe believed that abortion violated the provisions of Amendment Nine of the Bill of Rights. The Supreme Court ruled in her favor and legalized abortion, because an individual's right to privacy included a woman's right to abort her fetus, if she desired or it was deemed medically necessary. In order to fully understand the decision, it is necessary to review the content of the Ninth Amendment in regards to the right of privacy. Additionally, the United States Constitution needs to be reviewed simultaneously with the *Roe v. Wade* decision to compare the decision to the law. Additional sources cite the Fourteenth Amendment as a violation of an individual's right to privacy and property. This amendment is cited because several sources argue that an individual's right to property includes any substance, organ, or parasite living inside her. The woman is free to abort the fetus if she desires, because the fetus is her property. This amendment will also be reviewed in accordance with the claims of other sources.

The standard of Martainn conditions the coquette to perfection. Penny not venerated makes a routine, her surprise is much later.
